

# IVAN NAFRIZALDI

## Fullstack Web Developer

Yogyakarta | [+62 852-4161-0329](tel:+6285241610329) | [ivannafrizaldi@gmail.com](mailto:ivannafrizaldi@gmail.com) | [Linkedin](#) | [Portofolio](#)

## SUMMARY

---

I am a skilled full stack web developer with expertise in HTML, CSS, JavaScript, Typescript, Express.js, Node.js, Next.js, and React. I excel in creating responsive, user-friendly interfaces and robust backend systems, and have a strong background in building and deploying complex web services and databases. Proficient in Agile methodologies and version control, I am dedicated to delivering secure, scalable, and high-quality web applications that meet both user needs and business objectives.

## WORK EXPERIENCE

---

### Kementerian Agraria dan Tata Ruang / BPN

Surveyor Kadastral (September 2016 - September 2022)

- Conducted detailed cadastral surveys to accurately map and delineate property boundaries, ensuring compliance with legal and regulatory standards.
- Maintained up-to-date knowledge of land laws, regulations, and surveying techniques to ensure all work met the highest professional standards.
- Implemented efficient survey methodologies and best practices, resulting in increased accuracy and reduced project turnaround times.

## PROJECT EXPERIENCE

---

- **Kuckein - Laundry Delivery Service App**

Developed a comprehensive web application for a laundry delivery service, focusing on creating a seamless user experience for scheduling pickups and deliveries. Utilized Next.js and Tailwind CSS for a responsive front-end, and employed Node.js and Express.js for a robust back-end system to manage user data, orders, and payments. The application successfully launched with positive user feedback, increasing customer engagement and streamlining laundry service operations.

- **Purwapora - Event Management Platform**

Built a feature-rich platform to support event creation, browsing, and registration, along with user authentication and role management. Used Next.js for the front-end and Node.js with Express.js for the back-end, with a SQL database to handle event data and user information. Integrated referral-based discounts and user reviews. The platform provided a seamless experience for both organizers and attendees, leading to a significant increase in event registrations and positive user reviews.

- **Web Portofolio**

Created an online portfolio to showcase my web development skills, experiences, and projects using React and Vite. Ensured a fast and responsive user experience with detailed descriptions of my projects, skills, and contact information. The portfolio has been instrumental in showcasing my abilities to potential employers and clients, resulting in increased interest and job opportunities.
